Palestinian children killed in Israeli attacks on Gaza

Because there are not numbers

Know their names

The Gaza Strip is a graveyard for thousands of children, the United Nations has said.

Between October 7 2023 and October 7 2024, Israeli attacks have killed at least 10,000 children, according to Palestinian officials. That is one Palestinian child killed every 15 minutes, or about one out of every 100 children in the Gaza Strip.

Thousands more are missing under the rubble, most of them presumed dead.

The surviving children, who have endured the traumatic impact of multiple wars, have spent their lives under the shadow of an Israeli blockade, influencing every aspect of their existence from birth.

Here are the names of some of those children killed, sorted by age.

*In memory of **Sha'ban Abu Dalu**, burn alive the 14th of October 2024
- the night he turned 20 years old - following an Israeli strike on a tent
camp in the courtyard of al Aqsa hospital.*
